COOL & CALM

Pale hues can produce a restful feeling and lend a spa-like quality. Glidden's Clear Blue Sky paint has a calming effect in this study. One textile that coordinates well with the paint is the OD Ramo outdoor fabric from Clarence House (below), which features a fanciful vining branch design based on painter Gustav Klimt's "Tree of Life." Another is Thibaut's Gibraltar Embroidery fabric (bottom). For accent paints, consider the violet/gray of Dusk (below right) and the pearly gray of Inca Dove (below left).
